

Basketball vs football

Crete monee students are having a strong debate on whos better in the crete monee program either basketball or football a lot of students think football is the face of crete i highly think that's true i interviewed several people from the football team till the basketball. Basketball was bad for years now last year they went 7 - 20 with a losing record my question the basketball team haven't had a winning record since 2017 they been the laughing stock of crete monee highschool for 7 years now i believe the basketball team will never be more exciting than crete monee football.

Crete monee football has been elite since 2012. We have not had a losing record for while we have produced the best athletes for years now we have d1 college players every year. Football is way more interesting than basketball.

I interviewd jordan outlaw he on the basketball team i asked him do you think crete monee basketball is more exciting than crete monee football he

Don't say who you interviewed. You need to strengthen this lead. Also, this story should be in 12 Times New Roman and finish it - 400 - 450 words.
