Oh, goodness! What a dark ending, Jaden. I like how you built it up though with the foreshadowing and everything. As for dialogue (conversation), always write it in quotes and don't say what they said.

Dialogue should look like this:

"I like your afro," Daniel said.  
"Thanks," Natasha said.

It makes it more real. I'm only taking a point off because you wrote this in Arial and not Times New Roman. Other than that, it was well done.
